EXPERIENCE

Victor Jack

Software Engineer

Results-driven Senior Frontend Engineer with 4+ years of experience building high-performance, scalable web and mobile applications using React, Next.js, TypeScript, TailwindCSS, and React Native.

Specialized in creating responsive, accessible UIs with Firebase backend integration. Proven track record of optimizing performance, leading small teams, and delivering user-focused features that improve engagement and conversion rates. Passionate about clean code, modern tooling, and collaborating in agile environments.

Kleeth Technologies, Nigeria — *Front-End Developer*

April 2025 - Present

- Led the frontend deployment and CI/CD workflow for multiple web and mobile applications, managing builds and releases across Vercel, Netlify and Hostinger.
- Implemented and maintained API integrations between frontend applications and backend services, ensuring reliable data flow and error handling.
- Applied frontend security best practices, including secure authentication flows, protected routes and safe API consumption.
- Built optimized and responsive user interfaces using Next.js, React and Tailwind CSS.
- Developed mobile features and screens using React Native (Expo) and NativeWind.
- Collaborated with backend and product teams to translate product requirements into performant, production-ready interfaces.

SKILLS

Front-End Development:

React Native,
Expo,
ReactJS,
NextJS,
JavaScript,
TypeScript,
TailwindCSS,
Bootstrap

Back-End Development:

NodeJS
ExpressJS
MongoDB

Tools & Libraries:

Framer Motion
Jotai
Firebase
ChartJS
Gsap
Zustand
Redux

SOFT SKILLS

Problem-Solving

Let's Build Labs, Nigeria — *Front-End Developer*

February 2025 - August 2025

- Worked on the development of interactive and scalable web applications using NextJS.
- Managed authentication, database interactions, and cloud functions using Firebase.
- Created dynamic and responsive UI components with TailwindCSS.

Collaboration & Teamwork

Communication

Adaptability

Fast Learning

Critical Thinking

Silicon Delta, Nigeria — *Front-End Developer*

June 2024 - August 2025

- Designed and Deployed multiple responsive web applications leveraging NextJS and TailwindCSS.
- Enhanced site performance, accessibility and responsiveness through best practices and optimization techniques.
- led a team to a completion of a full project.
- Developed Mobile Applications for iOS and Android platform

Nke Africa, Nigeria — *Front-End Developer*

March 2023 - June 2024

- Volunteered as a Front-End Engineer
- Worked with a team of designers and developers
- Worked with ReactJS, Tailwind and some CSS/JS libraries

EDUCATION

University of Port Harcourt, Rivers State — *BSc*

December 2021 - 2025

PROJECTS

<https://victorjack.vercel.app>

- Showcases expertise in Front-End Development, featuring past projects and Technical Skills
- Built with NextJs and TailwindCSS to ensure responsiveness and modern design

<https://jpegyprince.vercel.app>

- Portfolio for a Photographer
- made with ReactJS and TailwindCSS.

<https://salon-site-lilac.vercel.app>

- Built a fully functional Spa Booking system that enables users to schedule appointments.

- Integrated MongoDB, ExpressJS for smooth database management and real-time notifications.

<https://cafe-site-cyan.vercel.app>

- A modern, visually appealing Cafe website featuring an interactive menu and ordering system.
- Built with ReactJS & TailwindCSS, ensuring a seamless user experience.
